

**Product name** : BENMAN GRAFFITI REMOVER  
**Reference number** : 28 588

### Product description

High quality effective tool to remove old layers of lacquer and unwanted graffiti on surfaces of stone, concrete, asphalt, metal and wood.

### Product characteristics

Easy to apply  
Very effective  
Gel-structure

### Physical and Chemical Characteristics

Contents : 400 ml  
VOC-content : Approximately 92% w/w  
Coverage : Approximately 0,8 m<sup>2</sup>

### Usage

**Before use, carefully read the directions on the packaging and act accordingly.**

The can should have room temperature.  
Best application temperature 15 to 25°C.  
Before use, shake the can.

Before use, test the compatibility of the surface.

Apply product generously and allow to take effect.  
The time to take effect depends on the quality and the age of the lacquer to be removed.  
Then remove with a tool appropriate for this purpose.

When required, rinse with water.

Contaminated product should be regarded as chemical waste.
