Product description

High quality, powerful tool to under high pressure remove dust and loose dirt from places which are hard to reach.

Product characteristics

User-friendly
Very effective
Powerful, directed jetspray

Physical and Chemical Characteristics

Contents	:	400 ml
Basis	:	Propane / butane
VOC-content	:	100% w/w
Scent	:	Characteristic
Vapour pressure at 20°C	:	3,5 to 4,5 bar

Usage

Before use, carefully read the directions on the packaging and act accordingly.

The aerosol should have room temperature.
Best processing temperature 5 to 30°C.

Switch off electrical installations before treatment.
During treatment, the aerosol should be in straight position.

Repeatedly, briefly press the nozzle.

When pressure falls (the aerosols feels cold), interrupt the treatment in order to restore the pressure in the aerosol.

Only switch on the electrical installation after evaporation (minimum of 15 minutes).
